Production Facility:
The use of materials in accordance with Directive 2014/68/EU is related to the reference to harmonized European standards or to the qualification by European approvals of materials or one-off approvals of materials. Therefore, safety approvals for use in production are also issued for equivalent materials, in accordance with other standards. When using the material grades listed in the columns ("material designation", "material specification" and "delivery condition"), the requirements and limits set out in the relevant reference standard and the PED Directive must be observed.
